

PARKING CONCERNS: During construction for the *Building Our Vision* project, there will be some significant changes to traffic flow and parking. Please use extra caution when visiting the Church grounds to make sure Church Staff, EDC Staff and Children, and the construction crews are safe and able to do their duty. These changes should go into effect on Monday, October 16.

- **WEEKDAYS:** Circle Drive and the entrance by the Church Office will be closed to all non-construction traffic during the week. EDC traffic will be routed through the Parlor entrance; Church traffic is asked to use the Kitchen entrance. If you need assistance but are unable to navigate the stairs, please use the phones in the Kitchen or hallway to call the Church Office by pressing “Kevin” or the EDC Office by pressing “Nancy”.
- **SUNDAY MORNINGS:** Circle Drive will be partially open on Sunday mornings. Our contractor will construct additional parking between Circle Drive and Gamble Street; it will be gravel parking, however. The Worship Committee and the Ushers offer valet service for those that need it, just bring your car to the Narthex entrance and an usher will help you.
- **GENERAL ISSUES:** ALL Church and EDC traffic must use the entrance off of Sibley Street; most construction traffic will be through the Gamble Street entrance. Please try to use the upper parking lot as much as possible during the week to free up space for EDC parent traffic and Church and EDC Staff.
